WEIGHING DATA LOGGER

ASHWEK AUTOMATION INTRODUCES A STATE-OF-THE-ART WEIGHING DATA LOGGER, ESPECIALLY FOR DATA MANAGEMENT DESIGNED FOR SEAMLESS INTEGRATION WITH ANY DIGITAL WEIGHING SCALE. THIS ADVANCED SOLUTION ENHANCES EFFICIENCY, ACCURACY, CONNECTIVITY, AND MAKING IT AN ESSENTIAL TOOL FOR INDUSTRIES REQUIRING PRECISION AND AUTOMATION IN WEIGHING OPERATIONS.

Display: 10.1-inch high-resolution screen

Operating System: Compatible with Windows 10 and Linux

Touch Type: G+G capacitive multi-touch display

Storage Capacity: 256 GB / 512 GB SSD

Memory Options: 8 GB / 16 GB RAM

PRODUCT FEATURES

Data Managment	Data Logger with customizable software to streamline weighing operations and automate inventory management efficiently.
Automated Operation	Data management solution, eliminating manual errors and enhancing operational accuracy.
Connectivity	Ethernet, HDMI Port, USB, RS232 , WI-FI and BT option.
Weighing System Integration	Seamlessly integrates with any electronic weighing scale for smooth, secure data flow with password protection — ensuring accurate, automated, and efficient weighing operations.
Software Support	Customizable Windows-supported software, designed to be user-friendly and tailored to meet specific application needs for seamless operation.
Batching Control System	Intelligent control systems allow real-time monitoring and adjustment, optimizing resource utilization.
Industries & Applications	Our Data Logger Weighing System is engineered to meet the specific demands of various industries, ensuring precision, efficiency, and compliance with industry standards. Whether for food, pharmaceuticals, chemicals, construction, or agriculture, our system provides reliable and accurate material handling solutions
